

FAR EASTERN FLOATING UNIVERSITY

since 1997

The Floating University (FEFU) is part of the Maritime State University named after Adm. Nevelskoy research and innovation infrastructure.

The on-board laboratories equipped with modern devices, represent the prototype of a technopark providing their resources to carry out various studies.

From 1997 to 2016

15 scientific expeditions were organized.

During the circumnavigation in 2003-2004 complex studies were conducted on board.

In 2010 the FEFU international expedition was organized to the Kuril Islands and the northern part of the Okhotsk Sea.

In 2013 the FEFU expedition was conducted on board "Professor Khlyustin". This was the first Arctic expedition and the first Arctic voyage of the "Professor Khlyustin".
